NEW

CAMSO 2-PIECE POLYURETHANE MIDROLLER CONVERSION KIT FOR CASE IH STEIGER QUADTRAC

The new Camso 2-piece polyurethane midroller kit includes an adapter hub which eliminates the need to replace seals and bearings everytime a midroller is replaced

WHAT DOES THIS MEAN?

- Save up to \$500 every time a midroller needs to be replaced
- Midrollers can now be easily swapped by simply removing bolts
- Changing a midroller becomes a simple 15-minute task instead of a 2-hour job requiring additional replacement parts
